

Quality of Life in Oncology: Measuring what matters for Cancer Patients and Survivors in Europe

**WE CARE
ABOUT YOUR
QUALITY
OF LIFE!**

Over the next months you may be asked to share your patient experience and contribute to EUonQoL, a groundbreaking European project involving our centre.

The goal of EUonQoL is to develop a questionnaire to measure aspects of quality of life that are important to people with a cancer experience similar to yours.

The questionnaire will be used across Europe to ensure that quality of life is central to future cancer policies. Fill it out! Your answers are invaluable to its success.

Help us improve quality of life in oncology!
